

DELIVERIES – IMPORTANT REVISION TO CUMBRIA COUNTY COUNCIL SERVICE

We have been in discussion with Cumbria County Council about their delivery service, and are pleased to report that it has been agreed that their drivers will now deliver prescriptions containing Controlled Drugs. The delivery service information has been revised, with some additional proof of prescription recipient ID requirements. We still cannot obtain signatures on the back of scripts, so have simply stated that the driver should obtain the NAME, D.O.B. and RELATIONSHIP TO PATIENT of the recipient.

We have provided a revised Delivery Sheet in the [delivery service information pack](#) for your use to incorporate these additional requirements.

A reminder: if you need to access the CCC delivery service, the pharmacy needs to phone the appropriate TRANSPORT MANAGER to request it. Here are there details:

We recognise that some contractors have reservations about using the NHS Volunteer Scheme. We would point out that patient need should be your first concern. If there is an urgent need for medication, and particularly EoL meds, every option should be considered to help patients!
